

Investor Presentation

Second Quarter 2026

August 4th, 2026

Safe Harbor

This presentation contains forward-looking statements. These statements may relate to, but are not limited to, expectations of future operating results or financial performance of BlackLine, Inc. (“BlackLine” or the “Company”), the calculation of certain key financial and operating metrics, capital expenditures, introduction of new solutions or products, expansion into new markets, plans for growth and future operations, technological capabilities, and ability to execute our technology and platform initiatives and strategic relationships, including our relationship with SAP, as well as assumptions relating to the foregoing. Forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified. In some cases, you can identify forward-looking statements by terminology such as “may,” “will,” “should,” “could,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “predict,” “intend,” “potential,” “would,” “continue,” “ongoing” or the negative of these terms or other comparable terminology. You should not put undue reliance on any forward-looking statements. Forward-looking statements should not be read as a guarantee of future performance or results, and will not necessarily be accurate indications of the times at, or by, which such performance or results will be achieved, if at all.

Forward-looking statements are based on information available at the time those statements are made and/or management’s good faith beliefs and assumptions as of that time with respect to future events, and are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in or suggested by the forward-looking statements. These risks and uncertainties include, but are not limited to risks related to the Company’s ability to attract new customers and expand sales to existing customers; the extent to which customers renew their subscription agreements or increase the number of users; the impact of current and future economic uncertainty and other unfavorable conditions in the Company’s industry or the global economy; and other risks and uncertainties described in other filings we make with the Securities and Exchange Commission (the “SEC”) from time to time, including the risks described under the heading “Risk Factors” in our Annual Report on Form 10-K and our subsequent Quarterly Reports on Form 10-Q, which are available on our website at <http://investors.blackline.com> and on the SEC’s website at www.sec.gov. In light of these risks and uncertainties, the forward-looking events and circumstances discussed in this presentation may not occur and actual results could differ materially from those anticipated or implied in the forward-looking statements. Except as required by law, BlackLine does not undertake any obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future developments or otherwise.

In addition, statements that “we believe” and similar statements reflect our beliefs and opinions on the relevant subject. These statements are based upon information available to us as of the date of this presentation, and while we believe such information forms a reasonable basis for such statements, such information may be limited or incomplete, and our statements should not be read to indicate that we have conducted an exhaustive inquiry into, or review of, all potentially available relevant information. These statements are inherently uncertain, and investors are cautioned not to unduly rely upon these statements.

In addition to U.S. GAAP financials, this presentation includes certain non-GAAP financial measures, including non-GAAP gross profit, gross margin, free cash flow, sales and marketing expense, research and development expense, general and administrative expense, income (loss) from operations, operating margin, net income and net income margin. These non-GAAP measures are in addition to, not a substitute for or superior to, measures of financial performance prepared in accordance with U.S. GAAP. The non-GAAP financial measures we use may differ from the non-GAAP financial measures used by other companies. A reconciliation of these measures to the most directly comparable GAAP measure is included in the Appendix to this presentation.

\$750M

\$500B+

Transforming the World's Largest Companies

We are focused on deepening and expanding our relationships with the world's largest and most complex organizations.

BlackLine powers the digital finance transformation behind over
\$56T in global market capitalization

Serving Market Leaders Across Diverse Industries

Continuously Growing Our Customer Wallet Share

721 customers with an ARR of \$250k+

49%

CAGR in customers
spending \$1M or more

20%

CAGR in customers
spending \$250k-\$1M

Growing Momentum in Platform Pricing

As we successfully attract new customers and migrate existing ones to our platform pricing, we expect a growing portion of our ARR to come from this model, leading to a planned decrease in paid user counts.

Platform pricing ARR as a percentage of eligible ARR¹

¹ Platform pricing ARR as a percentage of eligible ARR is calculated as platform annual recurring revenue divided by our eligible annual recurring revenue. We define eligible ARR as total annual recurring revenue, excluding revenue from SAP solutions-extensions ("SolEx") and the public sector.

Proven Enterprise Land & Expand Motion

ARR by Customer Cohort (Enterprise Customers)¹

ARR by Customer Cohort (All Customers)¹

¹Reflects annualized subscription and support revenue for the group of enterprise customers that became our customers in each respective cohort year. A “cohort” is a grouping of enterprise customers by the year specified. For instance, the 2012 cohort includes all enterprise customers whose contract start date is between January 1, 2012, and December 31, 2012. We calculate annualized subscription and support revenue at a particular date as the total amount of minimum subscription and support revenue contractually committed under each of our customer agreements for that month through the remaining term of the agreement, divided by the remaining number of months in the term of the agreement, multiplied by twelve. We calculate initial annualized subscription and support revenue for any given cohort year as the sum of annualized subscription and support revenue as of the first month of each customer agreement that was entered into within that given cohort year. Accordingly, in contrast to annualized subscription and support revenue, initial annualized subscription and support revenue does not reflect any changes in the payments due under or for the duration of customer agreements following the first month of the customer agreement. Our annualized subscription and support revenue as of June 30, 2026, for our customer cohorts for each of the years 2012 through 2025 represented an increase over the initial annualized subscription and support revenue for such customer cohorts, shown as the “Growth Multiple” above.
